

# TN3270 Client Option

With the availability of the TN3270 Client Option, the functionality of DynaComm Connectivity Series® 9.0 (DCS 9.0) is extended to provide access to the IBM mainframe environment. As part of DCS 9.0, the TN3270 Client Option is based on a highly extensible object-oriented architecture and supports multiple emulation sessions from within a single instance of the application. It presents a consistent user interface and leverages the core product's powerful event-driven scripting functions for unrivaled application automation and extensive customization. Not only does the high degree of modularity expand functionality, it also eliminates the expense of unnecessary emulations. Proven stability and excellent performance make DCS 9.0 the preferred business solution for customers who have the need to access multiple hosts in heterogeneous environments.

## Product Highlights

- ❖ EHLLAPI
- ❖ WinHLLAPI
- ❖ Hotspot support
- ❖ LU1/LU3 print

## Supported Emulations

- ❖ 3278 Models 2 - 5
- ❖ 3279 Models 2 - 5 (with and without extended attributes)
- ❖ 3287 Telnet printing support
- ❖ TN3270E with print

## Network Connectivity

- ❖ Microsoft SNA Server with print support
- ❖ Telnet—included in the core product

## File Transfer Protocols

- ❖ IND\$FILE (Supports TSO, CICS and CMS)
- ❖ FTP

## EHLLAPI/WinHLLAPI Support

The TN3270 Client Option includes both 32-bit EHLLAPI and 32-bit WinHLLAPI dynamic link libraries to support Microsoft® Windows® applications requiring HLLAPI interfaces. Your custom applications can also call these libraries directly, to interact seamlessly with 3270 sessions.

FutureSoft's commitment to quality is not only evident in our products but also in our people. The mission of our Professional Support Services group is to ensure that our solutions meet the technical and business objectives of our customers. We provide the tools and information needed for improved productivity. To accomplish this, we offer a wide array of services including: Technical Support, Education Services and Consulting Services.
