

DynaComm® UTS and Web-UTS

The DynaComm UTS products deliver comprehensive and reliable Unisys UTS terminal emulation to 32-bit Windows® users. Providing full terminal support for Series 1100/2200 and System 80 mainframe connectivity, DynaComm UTS and DynaComm Web-UTS offer feature-rich applications that are powerful, yet easy to use. DynaComm UTS and DynaComm Web-UTS can each be easily installed from a single disk or via a network file server.

Terminal Emulations

Both the DynaComm UTS and DynaComm Web-UTS products provide a consistent, powerful user interface, regardless of network connection, with support for the following Unisys terminals:

- ❖ U200P
- ❖ U300P
- ❖ U400P
- ❖ UTS 20
- ❖ UTS 30
- ❖ UTS 40
- ❖ UTS 60 (including color graphics support)
- ❖ SVT 1120

Network Connectivity

The DynaComm UTS products connect to a Unisys 2200 host via DCP or HLC over any compliant Winsock TCP/IP stack. Using the Winsock interface, they can also be used with PPP or SLIP on a dial-up Internet connection or over a private intranet.

File Transfer Protocols

The DynaComm UTS products provide built-in support for the following Unisys host file transfer protocol products:

- ❖ Masterlink
- ❖ MapperFTS (New in MAPPER Level 37)
- ❖ Text
- ❖ FTU

Product Highlights

- ❖ Support for multiple concurrent terminal sessions
- ❖ Support for HLC and/or DCP connections
- ❖ Right mouse context menu support
- ❖ Support for System 80 response mode
- ❖ No requirement for INFOConnect Modules
- ❖ Encrypted password security for all configuration functions
- ❖ Full-featured scripting language with exclusive Screen Maker support
- ❖ Support for real time selection and viewing of logged events within Log Viewer
- ❖ Translation table within printer settings
- ❖ Ability to assign separate properties and printers for each terminal session
- ❖ Ability to save screen to graphics file

FutureSoft's commitment to quality is not only evident in our products but also in our people. The mission of our Professional Support Services group is to ensure that our solutions meet the technical and business objectives of our customers. We provide the tools and information needed for improved productivity. To accomplish this, we offer a wide array of services including: Technical Support, Education Services and Consulting Services.
